## FUTURE POLICY CHANGES

In the event that Flagship Property Management adopts any policy changes that differ from the present terms of its contract, Flagship Property Management will communicate these changes to the owner by one or more means of communication and will specifically inform the owner how it proposes to amend the management contract. If the owner does not object to Flagship Property Management in writing within thirty (30) days of such notice of the policy change, Flagship Property Management will consider such change or changes to be incorporated into the terms of the management contract and will proceed accordingly. If the owner objects to such policy change, it will be necessary for Flagship Property Management to negotiate a new management contract with the owner, and within a reasonable time, Flagship Property Management will provide the owner with a proposed contract for review and approval.
